QUEST *to* DETECT

# RAPID Ag/Ab Diagnostic Kits

**EASY to Use**

**Fast Result in  
10 MINUTES**

**HIGH ACCURACY  
(>98% Sensitivity)**

**STORAGE &  
SHELF LIFE  
2-30°C; 24 months**

Broad range of superior quality Antigen/ Antibody  
detection kits for various diagnostics

# RapicoV™

## Rapid Antigen Test Kit for COVID-19

- *Sample Type* :  
Nasopharynx /  
Nasopharyngeal
- Shelf Life of 24 months at  
storage conditions of  
2-30°C
- Easy To use

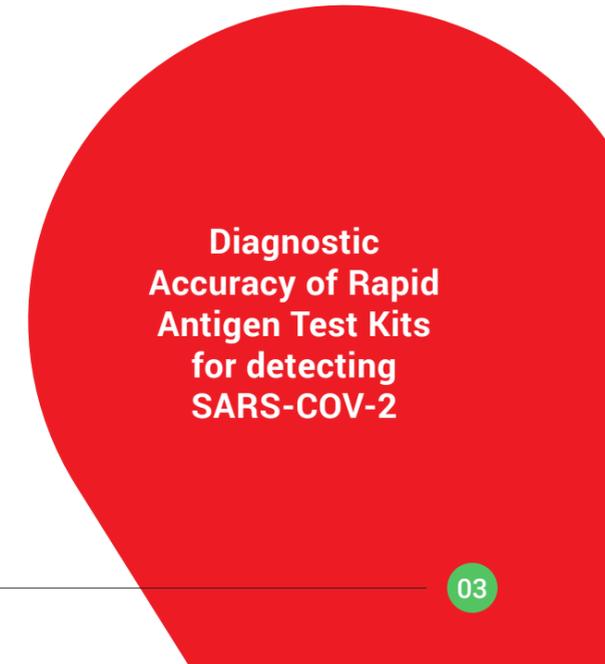

- **Highly Accurate:** >98% Sensitivity and  
Specificity
- **Faster Results:** Precise results  
in 10 Minutes
- **Superior Performance** : High concordance  
with Real Time PCR results

Commercial Name	Cat No.	Size
RapicoV Rapid Antigen Test Kit for COVID-19	G2M252521	25
CoviEasy COVID-19 Rapid Antigen Self Test	G2M555521	1

## COVID - 19 Rapid Antigen SELF TEST

- **Intelligently Designed** : Filled with solution  
which inactivates the virus and designed in  
the manner to control & contain biohazard.
- **Unique QR Code** : For accurate report  
generation.
- **Disposable Bag** : For easy & safe disposal.
- **Safe Nasal Swab** : Intelligently designed  
for bio containment.
- **Shelf Life** : 24 months at storage  
conditions of 2-30°C.

**Diagnostic  
Accuracy of Rapid  
Antigen Test Kits  
for detecting  
SARS-COV-2**

## Respiratory Health Diagnostics

Sample Type: Nasal/ Nasopharyngeal Swab or Throat Swab

### RapiFlu Rapid Antigen Test kit for Respiratory Virus (Covid-19, Flu-A/B, RSV)

- One step simultaneous qualitative detection of SARS-CoV-2 virus, Influenza A/B virus and Respiratory Syncytial Virus (RSV) specific antigens in infected clinical samples
- Intended for initial and simple screening

### RapiLAM Rapid Antigen Test kit for Lipoarabinomannan

- Qualitative Immunoassay for detection of LAM antigen of Mycobacteria in human urine and diagnosis of active mycobacterial infection in HIV positive patients showing clinical symptoms of tuberculosis.
- Point of Care Test to screen active TB in HIV positive patients

### RapiStrepto.A Rapid Antigen Test kit for Group A Streptococcus

- Qualitative detection of Strep A antigens in infected samples and aids to diagnose Group A Streptococcal (GAS) infections

Commercial Name	Cat No.	Size
RapiFlu Rapid Antigen Test kit for Respiratory Virus	G2MR172516	25
RapiFlu Rapid Antigen Test kit for Influenza A and B	G2MR172551	25
RapiLAM Rapid Antigen Test kit for Lipoarabinomannan	G2MR172553	25
RapiStrepto.A Rapid Antigen Test kit for Group A Streptococcus	G2MR172552	25

## Gastrointestinal Health Diagnostics

### RapiPylori Rapid Antigen Test kit for Helicobacter Pylori

- Rapid detection of antigen present in the feces/ stool samples by using specific antibodies, which indicates an active H. pylori infection.

### RapiPylori Rapid Antibody Test kit for Helicobacter Pylori

- Qualitative detection of H. pylori antibodies (IgG and IgM) in infected Human Whole Blood/ Serum/ Plasma samples

### RapiRota Rapid Antigen Test kit for Rotavirus

- Rapid assay for the qualitative detection of Rotavirus in human fecal samples

### RapiVibrio Rapid Antigen Test kit for Vibrio cholera

- Fast, simple and reliable method for detecting V. cholerae (O1 and/or O139) in fecal samples
- Ideal for screening of community Health Workers

Commercial Name	Cat No.	Size
RapiPylori Rapid Antibody Test kit for Helicobacter Pylori	G2MR172520	25
RapiPylori Rapid Antigen Test kit for Helicobacter Pylori	G2MR172524	25
RapiRota Rapid Antigen Test kit for Rotavirus	G2MR172521	25
RapiVibrio Rapid Antigen Test kit for Vibrio cholera	G2MR172523	25

## RapiFlu Rapid Antigen Test kit for Influenza A & B

- Rapid qualitative test that detects Influenza type A and type B viral proteins from infected specimens.
- Preliminary Screening of Infected people

04

## Cardiac Health Diagnostics

Sample Type: Human Whole Blood, Serum, or Plasma

### RapiTnl Rapid Antigen Test kit for Troponin I (cTnl)

- Intended to detect the elevated levels of cTnl, making cTnl a specific cardiac marker and aid in the diagnosis of myocardial injury such as Acute Myocardial Infarction (AMI), Unstable Angina, Acute Myocarditis and Acute Coronary Syndrome (ACS).

### RapiDD Rapid Antigen Test kit for D-Dimer

- Rapid in vitro qualitative assay device for detection of cross-linked fibrin degradation products containing the D-dimer in EDTA anti coagulated whole blood or plasma specimens.
- Aid in the assessment and evaluation of patients suspected of having disseminated intravascular coagulation or thromboembolic events

### RapiCK Rapid Antigen Test kit for Creatine Kinase (CK-MB)

- One Step CK-MB Test Device utilizes a combination of anti-CK-MB antibody coated particles and capture reagent to detect CK-MB in human specimens

Commercial Name	Cat No.	Size
RapiTnl Rapid Antigen Test kit for Troponin I (cTnl)	G2MR172527	25
RapiDD Rapid Antigen Test kit for D-Dimer	G2MR172528	25
RapiCK Rapid Antigen Test kit for Creatine Kinase (CK-MB)	G2MR172529	25

## Reproductive Health Diagnostics

### RapiFSH Rapid Antigen Test kit for Follicle-Stimulating hormone

- Intended to be used by healthcare professionals as an aid in qualitative detection of menopause using urine as clinical sample

### RapiN.Gon Rapid Antigen Test kit for Neisseria Gonorrhoeae

- Rapid chromatographic immunoassay for the qualitative detection of N. gonorrhoea in infected female cervical swab and male urethral swab specimens to aid in the diagnosis of Gonorrhoea infection

### RapiCer Rapid Antibody Test kit for Cervical Pre-cancer

- Screening test for Cervical Pre-cancer & Cancer and includes qualitative detection of Human papillomavirus (HPV) from cervical swab specimens.

### RapiHSV Rapid Antibody Test kit for Herpes Simplex Virus (HSV) 1 & 2

- Early screening and qualitative immunoassay for the detection of IgG and IgM antibodies specific to HSV 1/2 in whole blood, serum or plasma specimens.

Commercial Name	Cat No.	Size
RapiN.Gon Rapid Antigen Test kit for Neisseria Gonorrhoeae	G2MR172530	25
RapiCer Rapid Antibody Test kit for Cervical Pre-cancer	G2MR172532	25
RapiHSV Rapid Antibody Test kit for Herpes Simplex Virus (HSV) 1 & 2	G2MR172533	25
RapiLH Rapid Antigen Test kit for Luteinizing Hormone	G2MR172525	25
RapiFSH Rapid Antigen Test kit for Follicle-Stimulating hormone	G2MR172526	25

## RapiLH Rapid Antigen Test kit for Luteinizing Hormone

- Intended for qualitative detection of LH in urine and is sensitive up- to 35mIU/ml. The kit acts as an aid for the early detection of ovulation and is designed for professional & Self testing.
- Oral contraceptives may affect the test and produce inaccurate results

05

## Vector Borne Disease Diagnostics

Sample Type: Human Whole Blood, Serum, or Plasma

### RapiDen Rapid Antibody Test kit for Dengue

- Reliable and sensitive rapid serological test that simultaneously detects the presence of anti-dengue IgG and IgM antibodies
- Relative Sensitivity: 94.5% and Relative Specificity: 98%

### RapiMal Rapid Antigen Test kit for Malaria

- Rapid qualitative detection kit for detection of antigens specific to *P. falciparum* and *P. vivax*
- Intended for initial screening of malarial infection

### RapiChik Rapid Antibody Test kit for Chikungunya

- Qualitative kit for detection of chikungunya antibodies i.e. IgG, IgM

Commercial Name	Cat No.	Size
RapiDen Rapid Antibody Test kit for Dengue	G2MR172510	25
RapiDen NS1 Rapid Antigen Test kit for Dengue	G2MR172518	25
RapiMal Rapid Antigen Test kit for Malaria	G2MR172517	25
RapiChik Rapid Antibody Test kit for Chikungunya	G2MR172512	25

## Drugs of Abuse Diagnostics

### RapiAMP Rapid Antigen Test kit for Amphetamine (AMP)

- Simple, one-step assay for qualitative detection of Amphetamine metabolite, D-Amphetamine in urine with a cutoff at 1000ng/ml

### RapiBAR Rapid Antigen Test kit for Barbiturates (BAR)

- Rapid urine screening test that utilizes a monoclonal antibody to selectively detect elevated levels of Barbiturates in urine

### RapiBZO Rapid Antigen Test kit for Benzodiazepines (BZO):

- Rapid urine-screening test that utilizes the antibody to selectively detect elevated levels of Benzodiazepines and yields a positive result when level exceeds the cut-off value

### RapiCOC Rapid Antigen Test kit for Cocaine

- One step qualitative determination of Cocaine's metabolite in human urine specimens above a cut-off level of 300ng/ml

### RapiTHC Rapid Antigen Test kit for Marijuana

- Designed for qualitative determination of THC and its metabolites in human urine specimens.
- Detects the presence of 11-nor- $\Delta$  9-THC-9-COOH in human urine above a cut-off level of 50ng/ml

### RapimAMP Rapid Antigen Test kit for Methamphetamines (mAMP)

- The kit employs unique monoclonal antibodies to selectively identify D-Methamphetamine in test urine at or above the concentration of 1000ng/ml

Commercial Name	Cat No.	Size
RapiAMP Rapid Antigen Test kit for Amphetamine (AMP)	G2MR172534	25
RapiBAR Rapid Antigen Test kit for Barbiturates (BAR)	G2MR172535	25
RapiBZO Rapid Antigen Test kit for Benzodiazepines (BZO)	G2MR172536	25
RapiCOC Rapid Antigen Test kit for Cocaine	G2MR172537	25
RapiTHC Rapid Antigen Test kit for Marijuana	G2MR172538	25
RapimAMP Rapid Antigen Test kit for Methamphetamines (mAMP)	G2MR172539	25

## RapiDen NS1 Rapid Antigen Test kit for Dengue:

- Dengue NS1 is a highly conserved glycoprotein and plays an important role in early diagnosis of dengue fever before serological antibodies are detectable. This kit intends for detection of NS1 antigen
- Relative Sensitivity: 97.5% and Relative Specificity: 98.8%

## Other Infectious Disease Diagnostics

Sample Type: Human Whole Blood, Serum, or Plasma

### RapiTyphi Rapid Antibody Test kit for Typhoid

- Rapid test for the qualitative differential and simultaneous detection of typhoid antibodies in human samples.
- This test aids earlier diagnosis of typhoid infection and determination of recent and past infection.

### RapiTyphi Rapid Antigen Test kit for Typhoid

- Qualitative one step assay that employs antibodies specific to lipopolysaccharide (LPS) of *S. typhi* and *S. paratyphi* respectively, to selectively identify typhoid and/or paratyphoid infection with a high degree of sensitivity and specificity in clinical samples

### RapiScrub Rapid Antibody Test kit for Scrub Typhus

- Intended for qualitative and differential detection of antibodies to Scrub Typhus in clinical samples.

### RapiLeish Rapid Antibody Test kit for Leishmania

- Intended for qualitative detection of visceral leishmaniasis (kala-azar) by detecting antibodies specific to the subspecies of *L. donovani*, the causative protozoans in human specimens

### RapiT.Cruzi Rapid Antibody Test kit for Trypanosoma cruzi

- Rapid test intended to detect the presence of antibodies to Chagas virus.
- Simple and Easy to use POC (point of care) assays

### RapiLepto. Rapid Antibody Test kit for Leptospirosis

- Simple and rapid serological test that utilizes antigens from *L. interrogans* to detect and discriminate IgG and IgM antibodies

### RapiProcal Rapid Antigen Test kit for Procalcitonin

- Rapid semi-quantitative detection kit for Procalcitonin
- Used for diagnosing and controlling the treatment of severe bacterial infection and sepsis

Commercial Name	Cat No.	Size
RapiTyphi Rapid Antibody Test kit for Typhoid	G2MR172511	25
RapiTyphi Rapid Antigen Test kit for Typhoid	G2MR172522	25
RapiScrub Rapid Antibody Test kit for Scrub Typhus	G2MR172513	25
RapiSyph Rapid Antibody Test kit for Syphilis	G2MR172515	25
RapiLeish Rapid Antibody Test for Leishmania	G2MR172514	25
RapiT.Cruzi Rapid Antibody Test kit for Trypanosoma cruzi	G2MR172550	25
RapiLepto. Rapid Antibody Test kit for Leptospirosis	G2MR172554	25
RapiProcal Rapid Antigen Test kit for Procalcitonin	G2MR172555	25

## RapiSyph Rapid Antibody Test kit for Syphilis

- The kit utilizes highly specific antibody-antigen reaction to qualitatively detect syphilis antibodies in human clinical samples
- Useful in Initial Screening
